

Abdulrahman Alidrisy

Full Stack Engineer

Riyadh, Saudi Arabia | +966 57 101 0226 | a.alidrisy6@gmail.com | [LinkedIn](#) | [Portfolio](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Full Stack Engineer with 3+ years of experience shipping production web platforms end-to-end — from architecture to deployment. Sole builder of three commercial products (content platform, car-rental booking system, corporate services platform) using Next.js and Node.js, with SSR, bilingual Arabic/English i18n, and advanced SEO. Cut API response time by 40%, improved UI load time by 35%, and reduced deployment time by 50% in previous roles. Experienced with Google Cloud (Cloud Run, Cloud Build, BigQuery) and integrations including AWS SES, WhatsApp Business messaging, and NodeMailer.

TECHNICAL SKILLS

Frontend: Next.js, React.js, TypeScript, JavaScript (ES6+), Tailwind CSS, Motion.dev, i18n (Arabic/English), Responsive Design, React Query

Backend: Node.js, Express.js, Next.js API Routes/Server Actions, Python (FastAPI, Flask, Django), RESTful APIs, GraphQL

Databases: PostgreSQL, MySQL, MongoDB, Redis, BigQuery

Cloud & DevOps: Google Cloud (Cloud Run, Cloud Build, Cloud Storage, VM Instances, BigQuery), AWS (SES), STC Cloud, Docker, Kubernetes, GitHub Actions CI/CD, Nginx

Integrations: Payment gateways (Tamara, Tabby, Moyasar), Sentry, PostHog, Customer.io, AWS Mail Service (SES), WhatsApp Business API, NodeMailer, Firebase, Pusher

Web Performance & SEO: Server-Side Rendering (SSR), Core Web Vitals optimization, Technical SEO, Keyword Research, Structured Data

Practices: Agile/Scrum, Jira, Git, Code Review, System Design, Dashboard/Admin Panel Development

PROFESSIONAL EXPERIENCE

Freelance Full Stack Engineer — Independent Contracts

Remote / Riyadh, Saudi Arabia | 2025 – Present

Diraya Law Firm — Corporate Platform & Legal Knowledge Hub | diraiya.sa | 2026 (Next.js, Nest.js, full stack)

- Designed, built, and launched the entire bilingual (Arabic/English) platform solo — frontend, backend, and database — with SSR, prioritizing clean architecture, performance, and scalability

- Built a full content management dashboard enabling the firm's non-technical staff to publish legal articles, insights, and legal announcements without developer involvement
- Integrated AWS Mail Service (SES) to deliver automated legal-insights newsletters to the firm's subscriber base; built consultation-booking flows for client acquisition

Caro — Car Rental Booking Platform | caro-rent.com | 2025 – 2026 (*Next.js, full stack*)

- Delivered a complete end-to-end rental operation for a Riyadh car-rental company: customer booking flow, fleet catalog, full booking management, admin dashboard, seasonal-offers/marketing popups, and dynamic site settings controlled from the admin panel
- Automated customer communication by integrating WhatsApp messaging for instant booking approval/rejection notifications, eliminating manual follow-up
- Implemented SSR, Arabic-first SEO optimization, and Motion.dev animations for a fast, polished customer experience

Elite Experts — Consulting Firm Platform | eliteexperts.sa | 2025 (*Next.js, Node.js*)

- Built frontend and backend for a crisis-management and security consulting firm's bilingual (Arabic/English) platform, including a project management dashboard for internal operations
- Drove organic visibility through advanced technical SEO, keyword research, and content planning combined with SSR
- Implemented NodeMailer-based email pipelines for client communication and consultation inquiries

Technical Product Manager & Lead Engineer

HOMA | homaapp.com | Riyadh, Saudi Arabia | April 2026 – Present

- Lead end-to-end product delivery of HOMA (luxury property platform) while remaining hands-on: architected and built the web frontend from scratch with Next.js, React, Tailwind CSS, and React Query
- Supervise backend development within an 8-person team, guiding API design, database integration, and system architecture
- Author PRDs and user stories, translating business objectives into actionable technical milestones for the development team
- Integrated and owned the payment stack — Tamara, Tabby, and Moyasar (cards, mada, Apple Pay) — plus product observability and analytics with Sentry (error monitoring), PostHog (product analytics), and Customer.io (lifecycle messaging)

Frontend Developer & Backend/Product Consultant

HOMA | homaapp.com | Riyadh, Saudi Arabia | February 2025 – April 2026

- Built the HOMA web application from scratch; implemented real-time messaging and notifications with Pusher and Firebase
- Containerized the application with Docker for scalable, reproducible production deployments
- Consulted on backend architecture and product strategy, aligning technical decisions with business goals

Software Engineer

Bin Sammar Trading and Contracting Company | Riyadh, Saudi Arabia | June 2024 – April 2026

- Reduced API response time by 40% through backend optimization and efficient query design (FastAPI, Express.js, PostgreSQL, MongoDB)
- Improved UI load time by 35% via code splitting, lazy loading, and performance optimization in React/TypeScript applications
- Cut deployment time by 50% with automated GitHub Actions CI/CD pipelines; raised system uptime to 99.9% through logging and monitoring
- Provisioned and maintained a complete production environment on STC Cloud

Software Engineer

Ijar — Rental Marketplace Platform | Remote | January 2024 – April 2024

- Built backend infrastructure processing 1,000+ monthly transactions on the MERN stack
- Reduced code duplication by 40% with reusable React components; secured the platform with JWT authentication and role-based access control

EDUCATION

Indian Institute of Technology, Guwahati — BS, Data Science & Artificial Intelligence (2025 – 2029, *in progress*)

African Leadership Experience (ALX) — Computer Software Engineering (2023 – 2024)

CERTIFICATIONS

- ALX ProDev Back-End Programme — ALX Africa (2025)
- ALX Professional Foundations Program — ALX Africa (2024)
- J.P. Morgan Software Engineering Job Simulation — Forage (2023)
- HackerRank: Problem Solving (Basic), Python (Basic) (2023)

LANGUAGES

Arabic: Native | **English:** Professional Working Proficiency
